Step Platform

Category: **Beauty, Wellness & Fitness** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Step Platform

What it is used for

A step platform supports aerobic stepping, balance practice, and fitness exercises. Select an appropriate height and ensure the platform remains stable on a nonslip surface.

How to use

1. Inspect the platform surface, feet, risers, and locking points for damage.
2. Assemble the platform securely and confirm that all risers are locked in place.
3. Place it on a flat, nonslip surface with clear space around it.
4. Choose a height suitable for the user's fitness and coordination level.
5. Warm up and step onto the platform with controlled foot placement.
6. Maintain balance and step down carefully without jumping unnecessarily.
7. After exercise, inspect, clean, and store the platform.

⚠ Safety

- Do not use a cracked, unstable, or wet platform.
- Keep the exercise area clear of obstacles and other participants.
- Wear suitable footwear and avoid movements beyond your ability.
- Stop if pain, dizziness, or loss of balance occurs.

Care & storage

- Wipe the platform after use and check its feet, risers, and locking points regularly.
