Tessel

Category: **Sports & Physical Education** Type: **Short SOP** Priority: **Medium** 1 labs

Covers these lab items: Tessel

What it is used for

A tessel is used according to its specific design and intended sports or training application. Confirm the equipment identity and follow the manufacturer's instructions before use.

How to use

1. Identify the exact equipment type and confirm its intended function.
2. Inspect the item for damage, loose parts, sharp edges, or wear.
3. Check the instructions for correct setup, adjustment, and operating limits.
4. Prepare a clear work or activity area suitable for the equipment.
5. Demonstrate the correct handling method before allowing participants to use it.
6. Use the equipment only for its approved purpose and monitor for unusual movement or damage.
7. Clean, inspect, and store the item after use.

⚠ Safety

- Do not use equipment with uncertain identity or unclear operating instructions.
- Keep the activity area clear of obstacles and bystanders.
- Do not modify the equipment or exceed its rated limits.
- Stop use immediately if a fault or injury risk is identified.

Care & storage

- Follow the manufacturer's cleaning instructions and store the item in a dry, designated location.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
