Normal Saline

Category: **Medical, Healthcare & First Aid** Type: **Handling note** Priority: **Medium** 2 labs

Covers these lab items: Normal Saline; Normal Saline Bottle

What it is used for

Normal saline is a sterile saline solution used for approved medical purposes according to clinical instructions.

How to handle

- Verify the solution concentration, product label, expiry date, seal integrity, and intended clinical use.
- Use aseptic technique and open the container only when required by the procedure.
- Do not use cloudy, leaking, damaged, or expired containers; do not reuse single-use containers.
- Follow the approved clinical protocol for administration, irrigation, or other intended use.

Storage

- Store within the manufacturer's specified temperature and light conditions.
- Keep sealed containers clean and separate expired or compromised stock.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
