Diagnostic Test Strip

Category: **Medical, Healthcare & First Aid** Type: **Handling note** Priority: **Medium** 1 labs

Covers these lab items: Occult blood strips

What it is used for

Diagnostic test strips detect specified substances in a sample when used with the correct test procedure and interpretation criteria.

How to handle

- Verify the strip type, intended sample, expiry date, and package integrity before testing.
- Follow the manufacturer's instructions for sample collection, timing, and result interpretation.
- Use appropriate PPE and avoid touching the reactive test area or contaminating the sample.
- Dispose of used strips and sample materials according to the relevant clinical or laboratory waste procedure.

Storage

- Keep strips in their original container with the lid tightly closed and desiccant retained where provided.
- Follow the specified temperature, humidity, and expiry requirements.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
