Hula Hoop

Category: **Sports & Physical Education** Type: **Short SOP** Priority: **Low** 1 labs

Covers these lab items: Multi-coloured Hula Hoops

What it is used for

A hula hoop supports coordination, flexibility, balance, and movement activities in sports and fitness sessions. Select a suitable hoop size and provide enough clear space for safe movement.

How to use

1. Inspect the hoop for cracks, sharp edges, or loose connectors.
2. Choose a hoop size suitable for the user's age, ability, and activity.
3. Select a flat, clear area away from furniture and other participants.
4. Demonstrate the intended movement and explain safe spacing before starting.
5. Use controlled movements and maintain awareness of nearby people and objects.
6. Stop if the hoop becomes damaged or the activity area becomes unsafe.
7. Collect, clean, and store hoops after the session.

⚠ Safety

- Do not use cracked or sharp-edged hoops.
- Maintain enough space to avoid striking other people or objects.
- Avoid swinging hoops toward faces or using them in crowded areas.
- Stop activity if pain, dizziness, or loss of balance occurs.

Care & storage

- Wipe hoops clean and store them away from heat or heavy objects that may deform them.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
