Drawing / Plan

Category: **Teaching Aids, Charts, Books & Software** Type: **Handling note** Priority: **Low** 8 labs

Covers these lab items: Instrumentation diagrams; Layout plans; Location Plans; Loop diagrams

What it is used for

Drawings and plans communicate layouts, locations, instrumentation arrangements, and system connections.

How to handle

- Confirm the drawing title, revision number, scale, symbols, and approval status before use.
- Use the correct plan for the site, system, or training task.
- Protect drawings from spills, tearing, and unauthorised changes.
- Verify critical dimensions and connections against approved documentation before practical work.
- Report unclear, outdated, or conflicting information to the responsible supervisor.

Storage

- Store current drawings in labelled folders or approved digital repositories.
- Archive superseded revisions separately and retain document control information.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
