Bath Tub

Category: **Hospitality & Housekeeping** Type: **Handling note** Priority: **Low** 7 labs

Covers these lab items: Bath Tub

What it is used for

A bath tub holds water for bathing and must be kept clean and safe for users.

How to handle

- Inspect the tub surface, drain, taps, and surrounding floor for damage or leaks.
- Clean and disinfect the tub between users according to the facility procedure.
- Check water temperature before use to reduce scalding risk.
- Use non-slip precautions and assist users when required by the care plan.
- Report loose fittings, drainage issues, or slippery surfaces promptly.

Storage

- Keep the tub empty and clean when not in use.
- Store cleaning products separately and maintain the surrounding area dry and ventilated.
