# Hose Pipe

Category: **Agriculture & Gardening** Type: **Handling note** Priority: **Low** 5 labs

**Covers these lab items:** Hosepipe; Water Hose

## What it is used for

Hose pipes deliver water for irrigation, gardening, washing, and other approved tasks.

## How to handle

- Inspect the hose, connectors, and fittings for leaks, cracks, or blockages.
- Connect securely to a compatible water supply and avoid excessive water pressure.
- Uncoil the hose before use and keep it clear of walkways to prevent trips.
- Avoid kinks, sharp bends, vehicle traffic, and contact with hot surfaces.
- Turn off the water supply and release pressure before disconnecting.

## Storage

- Drain the hose after use and coil it without tight bends.
- Store in a shaded, dry location away from sharp objects and direct sunlight.

*Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.*
