Brick

Category: **Consumables & Raw Materials** Type: **Handling note** Priority: **Low** 3 labs

Covers these lab items: Bricks

What it is used for

Bricks are masonry units used in construction demonstrations, building work, and practical training.

How to handle

- Inspect bricks for cracks, loose fragments, or unstable shapes before use.
- Wear gloves and safety footwear when handling heavy or rough bricks.
- Lift using safe techniques and avoid carrying loads that block visibility.
- Stack bricks on stable, level ground and keep stacks within safe height limits.
- Control dust during cutting or breaking and use suitable eye and respiratory protection.

Storage

- Store bricks on a firm, level surface in stable stacks.
- Keep storage areas organised and away from walkways and emergency exits.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
