Kidney Tray

Category: **Medical, Healthcare & First Aid** Type: **Handling note** Priority: **Low** 3 labs

Covers these lab items: Kidney Tray

What it is used for

A kidney tray holds dressings, instruments, or waste during approved medical, first-aid, or care procedures.

How to handle

- Inspect the tray for cracks, sharp edges, corrosion, and cleanliness before use.
- Use the tray for its intended purpose and maintain separation between clean and contaminated items.
- Wear appropriate PPE when handling clinical materials or waste.
- Clean and disinfect reusable trays according to facility procedures after each use.
- Dispose of contaminated contents according to the relevant clinical waste policy.

Storage

- Store cleaned, dry trays in a designated clean area.
- Keep clean trays separate from used instruments and waste.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
