Workbench

Category: **Furniture, Storage & Display** Type: **Handling note** Priority: **Low** 3 labs

Covers these lab items: Two-wheeler workbench; Workbench with vice; Workbenches and workstations

What it is used for

A workbench provides a stable work surface for repairs, assembly, inspection, and practical training.

How to handle

- Inspect the bench, frame, worktop, vice, and fasteners for damage or instability.
- Secure the bench and clamp workpieces properly before cutting, drilling, or assembly.
- Keep tools organised and avoid placing heavy loads near unsupported edges.
- Use suitable PPE and keep hands clear of moving tools and pinch points.
- Clean spills promptly and report loose fixtures or damaged work surfaces.

Storage

- Remove tools and debris after use and leave the surface clean.
- Store the bench in a designated area and secure mobile units before leaving.
