Chopping Board

Category: **Food Processing & Kitchen** Type: **Handling note** Priority: **Low** 2 labs

Covers these lab items: Chopping Boards (Colour Coded); Cutting board

What it is used for

A chopping board provides a stable surface for cutting and preparing food ingredients.

How to handle

- Inspect the board for deep grooves, cracks, warping, and signs of contamination.
- Use colour-coded boards according to the kitchen's food-safety system to separate raw and ready-to-eat foods.
- Place the board on a stable surface and use a non-slip base where needed.
- Clean and sanitise the board between tasks and after handling raw meat, poultry, seafood, or allergens.
- Use knives carefully and replace boards that cannot be cleaned effectively.

Storage

- Wash, sanitise, and dry boards before storage.
- Store upright or in a ventilated rack so surfaces dry fully and remain protected from contamination.
