Magnetic Tray

Category: **Automotive** Type: **Handling note** Priority: **Low** 2 labs

Covers these lab items: Magnetic Tray

What it is used for

Use a magnetic tray to keep small metal parts organised during automotive work.

How to handle

- Place the tray on a stable, suitable surface away from moving machinery.
- Keep screws, nuts, and other metal parts inside the tray during work.
- Do not use the tray near sensitive magnetic devices unless approved.
- Clean grease and debris from the tray after use.

Storage

- Store clean and dry in the workshop tool area.
- Keep away from electronic equipment that may be affected by magnets.
