Barricade Tape

Category: **Safety & PPE** Type: **Handling note** Priority: **Low** 1 labs

Covers these lab items: Barricading/caution tape

What it is used for

Use barricade tape to clearly mark restricted or hazardous areas.

How to handle

- Identify the hazard and place tape so the restricted area is clearly visible.
- Secure the tape to stable supports without creating trip hazards.
- Do not use tape as a physical load-bearing barrier or fall protection.
- Remove or update tape when the hazard is cleared, following site procedures.

Storage

- Keep unused tape rolls dry and in their original packaging where practical.
- Store with safety supplies away from sharp edges and chemicals.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
