Step Stool

Category: **Furniture, Storage & Display** Type: **Handling note** Priority: **Low** 1 labs

Covers these lab items: Foot Step

What it is used for

Use a step stool safely to reach low-height work areas.

How to handle

- Inspect the stool for cracks, loose joints, and secure non-slip steps before use.
- Place it on a level, dry surface and fully open or lock it as designed.
- Keep both feet centred on the steps and do not stand on the top unless it is approved for standing.
- Do not overreach; reposition the stool and maintain three points of contact where applicable.

Storage

- Clean and dry the stool after use.
- Fold or store it as designed in a secure area away from walkways.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
