Vacutainer

Category: **Medical, Healthcare & First Aid** Type: **Handling note** Priority: **Low** 1 labs

Covers these lab items: Vaccutainer (red/black/violet)

What it is used for

Handle vacutainer blood collection tubes safely in clinical or training settings.

How to handle

- Use only by trained personnel following approved blood collection procedures.
- Verify tube type, additive, expiry date, and patient identification before collection.
- Wear appropriate PPE, avoid direct contact with blood, and never reuse single-use tubes.
- Do not use cracked, leaking, or incorrectly labelled tubes; dispose of used tubes in approved sharps or biohazard systems as applicable.

Storage

- Store unopened tubes according to the manufacturer's temperature and light requirements.
- Keep in original packaging, organised by type and expiry date, away from contamination.

Disclaimer: This SOP is prepared from general information available on the internet. For detailed instructions, refer to the manufacturer's original manual / file.
